

**STACK-ON®**

2016 SECURITY PRODUCT LINE

The Leader in Secure Firearm  
and [Valuable Storage](#)

**STACK-ON PRODUCTS COMPANY** offers the broadest range of firearm security products in the world, from security cabinets to upscale fire resistant/waterproof safes. There is a safe or cabinet to match any price point or security need. Stack-On was selected as the #1 brand of safe purchased in 2012, 2013 and 2014, by hunters, in a study conducted by Southwick Associates for the NSSF (National Shooting Sports Foundation).

Located near Chicago, Stack-On provides centralized distribution and the ability to mix product shipments to meet customer's needs—streamlining logistics and costs. Stack-On also provides drop ship services to our customers to reduce the fulfillment time to the ultimate consumer. Our flexibility and commitment to service sets Stack-On apart from the competition.

**All Stack-On branded safes and secure firearm cabinets are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.**

# Why Buy Stack-On: Value - Service - Warranty

# We're #1

## STACK-ON SAFES

**The Number One Brand of Safes Purchased by Sportsmen – 3 Years Running**

(2012 - 2014)<sup>†</sup> – Our product offering, service and warranty can't be beat.

## SELECTION

Stack-On provides more options, greater flexibility and price/value benefits than any other brand in the market today.

## LIFETIME WARRANTY–FREE REPLACEMENT GUARANTEE!

If your Stack-On Fire Resistant Safe is damaged due to an attempted theft or a fire **AT ANY TIME**, Stack-On will either **REPAIR** or **REPLACE** your safe **FREE OF CHARGE**.\*

**STACK-ON PAYS THE FREIGHT** to repair or replace your safe – **PERIOD**.

**FOUNDED IN 1972**, Stack-On has a proven history of standing behind its Safes and Secure Storage Products.

**#1 Brand Purchased  
by Hunters**

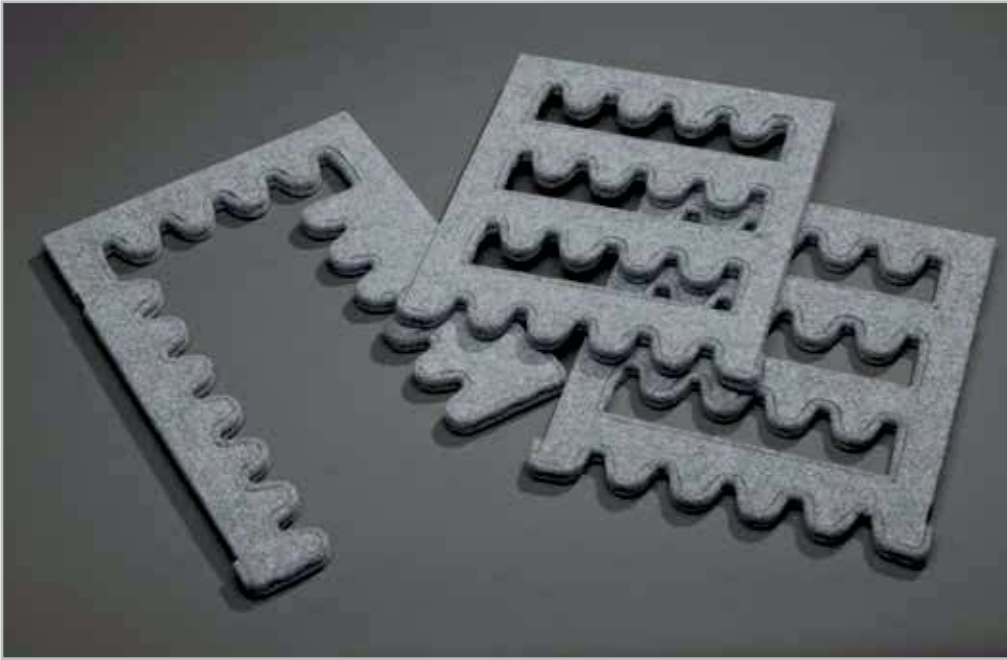

**\*Please see our warranty for for more complete details.**

<sup>†</sup>Annual study conducted by Southwick associates for the NSS.

# The Most Flexible Safe Storage System Available

**All Full Length, Stack-On Branded Fire Safes now include “Extra” Barrel Rests to let you configure your safe to meet your storage needs!**

- All Fire Resistant Safes that are 59" tall or taller include **NEW** carpeted barrel rests.
- Safes include full center dividers that allow the barrel rests and shelves to be **fully adjustable**. Store tactical weapons or shorter guns on one side and longer rifles or shotguns on the other – **you set the barrel rest height**.
- Safes with a single center divider include 3 barrel rest sections with adjustable shelves, providing **5 different possible ways to customize your safe interior**.
- Safes with two center dividers include 5 barrel rest sections and adjustable shelves which provides **9 different possible configurations**.
- U-Shaped barrel rests include spots for scoped rifles.
- All full sized, Stack-On branded, fire resistant safes include factory installed door storage panels to extend your storage options.

**Stack-On's new safe lineup provides MORE Interior Storage Options than any other brand in the market today.**

# Fire-Resistant & Waterproof

## Stack-On Products offers the only full line of Total Defense Safes which protect against Theft - Fire - Floods

**Protects against floods**, a synthetic rubber gasket and other sealants on the body of the safe keep water out when standing in up to 2 feet of water. The reinforced steel door is filled with fire retardant material.

Door stripping expands when exposed to heat, sealing the door and **protecting the safes contents from a fire.**

Extra large, 1.5" - locking bolts secures the door **against theft** and ensures a watertight seal when the door is closed.

[Safes must be bolted to the floor to comply with warranty for waterproof feature. Special fastening hardware is included with each safe.]

### A burglary occurs every 25 seconds (FBI CRIME IN THE UNITED STATES 2014)

- In 2014, there were almost 1,730,000 burglaries reported in the U.S. – 73.2% or a little over 1,266,000 were home break ins.
- A residential burglary occurs every 25 seconds and only takes an average of 8-12 minutes, over 53% occur during the day when the homeowner is away.
- The average dollar value of property taken during a burglary in 2014 was \$2,251.

### Floods are the #1 natural disaster in the United States (FEMA FACT SHEET)

- From 2005 to 2014, total flood insurance claims averaged more than \$3.5 billion per year. Since 1978, the National Flood Insurance Program has paid nearly \$50 billion for flood insurance claims and related costs (as of 2-17-15).
- In the past 5 years, all 50 states have experienced floods or flash floods.
- Just a few inches of water can cause tens of thousands of dollars in damage. There are currently more than 5.3 million flood policies (through the National Flood Insurance Program) in force across more than 22,000 communities in the U.S.

Jonathan's safe was airborne in a twister in Alabama. It and its contents survived and is still in use today.

### Stack-On safes endure catastrophic house fires

- On average, a fire department responds to a structure fire every 65 seconds. In 2013, home fires caused an estimated \$6.8 billion in direct property damage. (NFPA Statistics)
- Stack-On's Fire Rated Safes are tested by an independent testing lab. Many safes on the market today are only factory tested.
- In addition, the temperature of an average house fire can reach 1200° F—Stack-On's safes are all rated at a minimum of 1400° F to make sure the safe's contents are protected.

William's fire started 2 feet from his safe. The fire burned for about 45 minutes.

"The safe did an excellent job. Thank you guys for making an outstanding product" – William from Virginia

# Tactical Security Safe

FIRE RATED FOR 30 MIN.

Fire resistant for 30 minutes up to 1400° F – tested and verified by an independent testing lab.

Fully convertible to hold tactical weapons and long gun firearms. Long gun firearms sections can be converted to shelving for storing ammo cans, magazines and more.

Backlit electronic lock is easy to program and can store a 3 to 8 digit code. Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts.

A drill resistant, hardened steel plate is located behind the lock for greater security. Batteries are easily accessible from the front. A backup key is included.

Available in a matte black finish with silver/gray accents and riveted steel tread plate panels on the front of the door.

This is a California-approved Firearm Safety Device that meets the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each safe.

Tactical Storage section includes 4 adjustable barrel rests that are extended to accommodate the added depth needed to store tactical weapons.

Rifles or shotguns can be stored on each side of the tactical gun storage section or can be converted to shelving for storing ammo cans, pistols or other items.

Factory  
Installed  
Door  
Storage

Factory installed door storage provides added storage for pistols, magazines and other gear.

Reinforced steel door is filled with fire retardant material. Door stripping expands and seals when exposed to fire.

4-way locking with extra large 1.5" steel, live action locking bolts.

|        | Model Number | Fire-Resistant | Storage                                               | Door Storage | Shelves | Locking Bolts   | Shipping Weight | Dimensions (W x D x H) |
|--------|--------------|----------------|-------------------------------------------------------|--------------|---------|-----------------|-----------------|------------------------|
| 20-GUN | TS-20-MB-E-S | •              | 4 Tactical Weapons and 16 Standard Rifles or Shotguns | •            | 6       | 10 Bolts, 4-way | 553 lbs.        | 35-1/4 x 26-3/4 x 59"  |

# Tactical Security Cabinet

Fully convertible to hold tactical weapons and long gun firearms. Long gun firearms sections can be converted to shelving for storing ammo cans, magazines and more.

A 3-point locking system secures the door with a double-bitted key-coded cylinder for greater security.

Available with a silver/black hammertone body and a black door with riveted steel tread plate panels on the front of the door.

This is a California-approved Firearm Safety Device that meets the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each cabinet.

2-Gun Tactical Storage section includes adjustable barrel rests that are extended to accommodate the added depth needed to store tactical weapons.

Stack-On's superior all-steel 3-point locking system provides greater security.

Locking bars pass behind the steel cabinet frame at the top, bottom and center section of each unit.

|        | Model Number | Fire-Resistant | Storage                                               | Door Storage | Shelves                                          | Locking Points | Shipping Weight | Dimensions (W x D x H) |

| 16-GUN | TC-16-GB-K   |                | 2 Tactical Weapons and 14 Standard Rifles or Shotguns |              | 5 shelves; 1 full-width and 4 half-width shelves | 3              | 107 lbs.        | 21 x 18 x 55"          |

# Total Defense Safes

FIRE RATED FOR 75 MIN.–WATERPROOF–FULLY CONVERTIBLE

4-way locking with 1.5" tapered live action locking bolts.

Fire resistant for **75 minutes** up to 1400° F–tested and verified by an independent testing lab.

Waterproof in up to 2 feet of standing water for 72 hours–tested and verified by an independent testing lab. (Safe must be bolted to the floor to maintain waterproof rating.)

All models include **NEW** carpeted barrel rests with an **"Extra"** barrel rest for **added storage flexibility**.

Safes are fully carpeted, include adjustable shelves and a factory installed door storage organizer.

Factory installed electrical socket for charging or powering electronic devices is standard.

Backlit electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts.

A drill resistant, hardened steel plate is located behind the lock for greater security. Batteries are easily accessible from the front. A backup key is included

3-number combination lock with a drill resistant, hardened steel plate behind the lock provides greater security.

Exteriors have a powder paint finish with brushed nickel and black accents.

These safes are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each safe.

Factory installed door organizer provides added storage for pistols, magazines and other gear.

Factory Installed Door Storage

NEW

New carpeted barrel rests **PLUS** an **"Extra"** barrel rest provides more flexibility for storing long guns.

Barrel rests are fully adjustable – one side can be lowered to hold MSR while another holds longer rifles or shotguns – you adjust the height to meet your needs.

U-shaped barrel rests have spots for scoped rifle storage.

Reinforced steel door is filled with fire retardant material. Door stripping expands when exposed to heat, sealing the door and protecting the safe's contents from a fire. Synthetic rubber gasket and other sealants provide waterproof protection.

Extra Large Locking Bolts

Extra large 1.5" steel, tapered, live action locking bolts are extended and retracted with the turn of the steel 5 spoke handle.

Backlit electronic lock lights with a touch of a number.

Factory installed electrical socket maintains Stack-On's waterproof and fire rating.

# Total Defense Safes

**"Extra" barrel rest is included to expand your storage options. Each barrel rest is fully adjustable.**

# Armorguard Safes

FIRE RATED FOR 30 MIN.-WITH FACTORY INSTALLED DOOR ORGANIZER

**NEW  
Series**

2 and 4-way locking with 1.5" live action locking bolts.

Fire resistant for 30 minutes up to 1400° F—tested and verified by an independent testing lab.

Fully carpeted barrel rests and interior are convertible with adjustable shelving. Includes factory installed door storage.

Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts.

A drill resistant, hardened steel plate is located behind the lock for greater security. Batteries are easily accessible from the front. A backup key is included.

Exteriors have a matte black powder paint finish with chrome accents.

These safes are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each safe.

Factory installed door storage organizer is included on all safes. This handy organizer is great for storing pistols, magazines and other gear.

Fully carpeted interior includes carpeted barrel rests and adjustable shelving.

Extra large 1.5" steel, live action locking bolts.

**Extra  
Large  
Locking  
Bolts**

Reinforced steel door is filled with fire retardant material. Door stripping expands and seals when exposed to fire.

# Shooter's Safes

DESIGNED FOR SERIOUS HANDGUN OWNERS

4-way locking with 1.5" live action locking bolts.

Fire resistant for 30 minutes up to 1400° F – tested and verified by an independent testing lab.

Fully carpeted interiors with 3 adjustable shelves.

**New pistol racks** wrap around the back of a shelf, allowing the pistols to be stored under the shelf.

Includes storage on the door for magazines.

**Larger version is designed to hold two automatic weapons** – extra deep, adjustable barrel rests are included and can be mounted on both sides of the safe in front of the shelves.

Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect entries.

A drill resistant, hardened steel plate is located behind the lock for greater security. Batteries are easily accessible from the front. A backup key is included.

Exteriors have a black powder paint finish with chrome accents.

These safes are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each safe.

Factory installed door storage allows for easy access and organization of magazines and other small items.

Hanging pistol racks, that are attached to the back of a shelf, provide better access to your pistols and free up shelf space.

4-way locking, with extra large - 1.5" locking bolts.

Reinforced steel door is filled with fire retardant material.

Door stripping expands when exposed to heat, sealing the door and protecting the safe's contents from fire.

# Shooter's Safes

The E-13-MB-E-S can store two ARs.

Hanging shelf barrel rests are included.

# FS Series Safes

FIRE RATED FOR 30 MINUTES—CONVERTIBLE

2-way locking with 1" live action locking bolts.

Fire resistant for 30 minutes up to 1400° F—tested and verified by an independent testing lab.

Select safes are fully convertible with adjustable shelves. Fully carpeted interiors.

Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts.

A drill resistant, hardened steel plate is located behind the lock for greater security. Batteries are easily accessible from the front. A backup key is included.

3-number combination lock with a drill resistant, hardened steel plate behind the lock provides greater security.

Exteriors have a powder paint finish with chrome or gold accents.

These safes are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each safe.

Large 1" steel locking bolts.

Reinforced steel door is filled with fire retardant material.

Door stripping expands and seals when exposed to heat, sealing the door and protecting the safe's contents from a fire.

Steel dead bolts on the hinge side of the safe provide added security.

Locking bolts are extended and retracted by using the steel lever handle.

Patented Barrel Rests and Standoffs

- Keeps scoped rifles away from walls and provides for one position storage.
- Sized to accept rifles as well as side-by-side shotguns.
- Greater durability than foam barrel rests

# Ammo Security Cabinet

SECURE STORAGE FOR AMMO AT AN AFFORDABLE PRICE

Firepower Ammo Cabinet can store up to 8 standard sized ammo cans.

Cabinet includes 3 reinforced, fixed, steel shelves that can hold up to 75 lbs. per shelf.

Fully lockable with Stack-On's superior all-steel, 3-point locking system.

Locking bars pass behind the steel cabinet frame at the top, bottom and center section of the cabinet.

Large center locking cam provides added security.

Welded steel construction with full-length piano type hinge for greater durability and strength.

Includes a key-coded cylinder lock—keys can only be removed if unit is locked—helps to prevent accidentally leaving your ammo unsecured.

Fastening hardware is included with each cabinet. Not rated for storage of firearms.

|              | Model Number | Color                                       | Shelves            | Shipping Weight | Dimensions (W x D x H) |
|--------------|--------------|---------------------------------------------|--------------------|-----------------|------------------------|
| AMMO CABINET | ASC-1416     | Black Hammertone Body with Silver-Gray Door | 3 Reinforced Steel | 91 lbs.         | 21 x 16 x 55"          |

# Steel Security Cabinets

3-point locking system with double-bitted, key-coded cylinder lock for greater security.

Removable shelves are included for greater storage and organization.

Exteriors have a high gloss powder paint finish with chrome or gold accents.

These security cabinets are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

---

Fastening hardware is included with each cabinet.

Stack-On's superior all-steel 3-point locking system provides greater security.

Locking bars pass behind the steel cabinet frame at the top, bottom and center section of each unit.

## Patented Barrel Rests and Standoffs

# Steel Security Cabinets

## PISTOL/AMMO CABINETS

Pistol/Ammo Accessory Cabinets are secured with a large steel cam that passes through the door and then behind the steel cabinet frame. Opens with a double-bitted, key-coded cylinder lock.

Removable shelf (shelves) are included for greater storage and organization.

Exteriors have a high gloss powder paint finish with chrome or gold accents.

These cabinets are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each cabinet.

Both the GCG-900 and GCB-900 fit on top of all standard factory-assembled Stack-On Gun Cabinets. Pre-drilled mounting holes and fastening hardware are included.

Not recommended for use with Stack-On 10-Gun Security Cabinet or 8-Gun RTA Cabinet. Please refer to the GCG-500 or GCB-500 for use with these security cabinets.

# Steel Security Cabinets

## IN-WALL-STEEL SECURITY CABINETS

In-Wall Security Cabinets allow you to store valuables and firearms without taking up floor space.

All-steel construction and double-bitted, key-coded cylinder locks provide greater security.

These cabinets have pre-drilled holes for mounting into the wall between studs—built for standard 16" on center stud walls.

Exteriors have an off-white, powder paint finish.

These security cabinets are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Fastening hardware is included with each cabinet.

Piano hinge

Mounting holes

Stack-On's superior all-steel 3-point locking system provides greater security.

Locking bars pass behind the steel cabinet frame at the top, bottom and center section for the two larger cabinets.

IWC-11 locks with a large steel cam lock and key-coded lock.

|         | Model Number | Color | Foam Padding   | Shelves        | Shipping Weight | Dimensions (W x D x H) |
|---------|--------------|-------|----------------|----------------|-----------------|------------------------|
| IN-WALL | IWC-55       | White | Shelves/Bottom | 3 + Steel Tray | 33 lbs.         | 14 x 3-7/8 x 53-5/16"  |
|         | IWC-22       | White | Shelves/Bottom | 2              | 16 lbs.         | 14 x 3-7/8 x 20-13/16" |
|         | IWC-11       | White | Shelf/Bottom   | 1              | 9 lbs.          | 14 x 3-7/8 x 9-5/16"   |

# Security Safes

WITH ELECTRONIC OR BIOMETRIC LOCKS

## GREAT SECURITY FOR PISTOLS, AMMO AND VALUABLES AT HOME, ON THE ROAD OR IN THE OFFICE.

Solid steel, pry resistant, plate steel doors, steel live action locking bolts and concealed hinges provide greater security.

There are pre-drilled holes for mounting the safe to the floor/permanent shelf and wall. Fastening hardware is included.

Safes should be mounted to a solid surface to ensure the security of their contents.

These safes are California-approved Firearm Safety Devices that meet the requirements of Penal Code section 23655 and the regulations issued thereunder.

Includes a backup key should your batteries lose power or if you forget your combination.

Combination can be changed easily by pressing a button located on the back of the door and entering a new combination.

Solid steel, pry resistant door has concealed hinges and 2 steel, live action locking bolts.

Access the safe with a press of your finger. The backlit **biometric** lock can be programmed to accept up to 20 different fingerprints. The safe can beep when the correct code is entered or be silenced with the touch of the scanner.

**Electronic** lock includes a dashboard faceplate that makes it easy to view the status of your safe.

The key pad will "beep" when a button is touched—letting you know you have pressed a key. The "beeps" can be turned off or on with the press of the megaphone button.

Safe can be converted to storage and includes 3 removable shelves.

Pre-drilled mounting holes in the body make mounting the safe in the wall easy. Includes fastening hardware. Built to fit between stud walls – 16" on center walls.

#### DIMENSIONS

13-13/16" wide  
3-7/8" deep  
53-3/8" high

# Quick Access Safes

**Quick Access Safes provide instant access to your safe's contents.** These safes open with the press of your finger or by entering the correct code on the electronic key pad.

The doors, on most of these safes, will open automatically when the correct code is entered into the safe.

**New keypads are backlit for greater visibility in low light settings.**

Holes are pre-drilled in the safes for securing to a wall, permanent shelf or the floor. Includes fastening hardware.

QAS Safes should be secured to a solid surface to ensure the security of the safe's contents.

These safes are California-approved Firearm Safety Devices that meets the requirements of Penal Code section 23655 and the regulations issued thereunder.

## BIOMETRIC LOCKS

Biometric locks provide greater security and can **accept 20 different fingerprints**. A backup key is included.

Lock is **backlit** for greater visibility.

The safe includes a sound card which creates a "beep" if the correct entry is made but the sound card can be silenced with the touch of the scanner.

## ELECTRONIC LOCKS

**Electronic locks allow for a 3 to 8 digit combination** to be programmed into the safes. Includes a backup key.

New electronic keypad can be programmed to beep when a key is pressed or the beeps can be silenced.

# Quick Access Safes

## **QAS-1512-B & QAS-1545-B** Quick Access Safes with Biometric Lock

Provides greater security—no combinations to remember.

Biometric Lock can accept 20 different fingerprints with backup key. Biometric reader is easy to use and program.

Scanner is backlit for easy use in low light settings.

Lock can be programmed to beep or be silenced with a touch of the scanner.

Holds standard sized pistols and other valuables. Foam padded interior.

The QAS-1512-B includes a removable shelf.

### **DIMENSIONS**

**QAS-1512-B** 10" wide x 12-1/4" deep x 8-1/4" high

**QAS-1545-B** 10" wide x 12-1/4" deep x 5-5/8" high

## **QAS-1512 & QAS-1545** Quick Access Safes with Electronic Lock

Electronic lock allows for a 3 to 8 digit combination to be programmed into the safe. Includes a backup key.

New electronic keypad is backlit for better visibility in low light settings and allows for the keypad beeps to be turned off and on.

Holds standard sized pistols and other valuables. Foam padded interior.

The QAS-1512 includes a removable shelf.

### **DIMENSIONS**

**QAS-1512** 10" wide x 12-1/4" deep x 8-1/4" high

**QAS-1545** 10" wide x 12-1/4" deep x 5-5/8" high

## **QAS-1304-12** Low Profile Quick Access Safe with Electronic Lock and Mounting Plate

Slim-line Safe with a removable mounting plate. Locking plate can be affixed to a location and the safe can be secured to the plate or removed by accessing a bolt inside the safe. It can be mounted in the trunk of a car and then moved to a different location in the house or pistol range.

Safe has pre-drilled holes for mounting to the floor or a shelf with the locking plate.

### **DIMENSIONS**

9-7/8" wide x 13" deep x 4-1/4" high

# Quick Access Safes

## QAS-1514-B

Single Pistol Quick Access Safe with Biometric Lock

## QAS-1514

Single Pistol Quick Access Safe with Electronic Lock

Safe door is spring loaded and pops open automatically when the correct code is entered.

Large enough to fit most tablets.

Foam interior protects the contents during transit

Units are designed to be secured with steel cable (1500 lb. test). Cable is included.

PC-125K-RTX – Realtree Xtra® Camo finish  
PC-125K-S – Sand finish

#### DIMENSIONS

12-1/8" wide x 12-1/2" deep x 2-5/8" high

### PC-95K-RTX & PC-95K-S Portable Security

■ Secured with a key-coded locking system.

### PC-95C-RTX & PC-95C-S Portable Security

■ Secured with a 3-tumbler combination locking system. No keys!

Meets TSA airline guidelines.

Designed to secure a wallet, credit cards, cell phone or other valuables during transit.

Slim-line steel design slips into a briefcase, under a car seat or in your luggage for added security and peace of mind.

Foam interior protects the contents during transit.

Includes 1500 lb. test steel cable which keeps the units secure when the cable is looped around any fixed object and through the cable slot in the body of the units. Locking the units keeps the cable in place.

PC-95K-RTX/PC-95C-RTX – Realtree Xtra® Camo finish  
PC-95K-S/PC-95C-S – Sand finish

#### DIMENSIONS

6-1/2" wide x 9-1/2" deep x 1-3/4" high

Realtree® and Realtree Xtra® are registered Trademarks of Jordan Outdoor Enterprises Ltd.

# Reloading Benches

## WB-402

### Reloading Bench with Back Wall

Create your own reloading center with this bench from Stack-On. Built to stand up to everyday use. Features include:

- 1" thick, wooden work surface.
- Inset steel end panels which provide greater strength.
- Pegboard back wall for frequently used tools.
- Steel top shelf provides additional storage.
- 2 full-length steel shelves provide ample storage and structural strength.
- 1 steel drawer with ball bearing drawer glides can hold heavy loads. Drawer can be mounted on right or left hand side of the bench.
- Black, gloss epoxy paint finish with silver/gray drawer.
- Assembles in minutes.

Fastening hardware is included.

40" w x 20" d x 58" h  
(Work surface height: 36")

## WB-382

### Steel Reloading Bench

Compact reloading bench is great for the sportsman.

- Work surface is 1" thick and fastens directly to the steel end panels and top rails for greater stability.
- Rugged steel I-beam constructed end panels provide added strength.
- 2 large steel shelves help organize your work area. Shelf size is 17" deep x 38" wide.
- Steel pegboard end panels provide hanging storage for additional tools and supplies.
- Gloss black epoxy paint finish.
- Assembles in minutes.

Fastening hardware is included

42" w x 20" d x 36" h

# Accessories

## SPAEL-400 LED Safe Light Kit

Lets you direct the light where you need it.

- 4 LED Light Strips – each strip has 30 LEDs for a total of 120 LED lights. Strips attach to the interior of a safe with hook & loop tape which is included.
- The light strips can be daisy-chained together or split to run down both sides of a safe.
- A proximity sensor knows when the door is closed or open to automatically turn the lights on and off.
- Wire management clips are included to keep the interior of your safe looking neat.
- UL and CE approved.

5-1/8" w x 2-1/16" d x 13-13/16" h (in packaging)

## SPAL-300 LED Directional Light

Illuminate the inside of your safe or security cabinet with this battery operated LED light.

- 3 light heads – each with 3 LED lights – pivot independently for directional lighting.
- The light can turn on automatically when the safe or cabinet door is opened when using the optional motion detection setting. The light will turn off when no motion is detected. The light can be programmed to turn off when no motion is detected after 30 or 60 seconds, depending on your needs.
- There is also a manual on/off switch with 2 levels for brightness.
- Battery operated, no wiring needed.
- Easy to install with mounting plate or hook & eye tape (both are included).

Requires 6 AAA batteries (Batteries are not included).

11-3/4" w x 2-3/8" d x 1-1/2" h

5-1/2" w x 1-7/8" d x 13-15/16" h (in packaging)

## SPAD-60 & SPAD-24

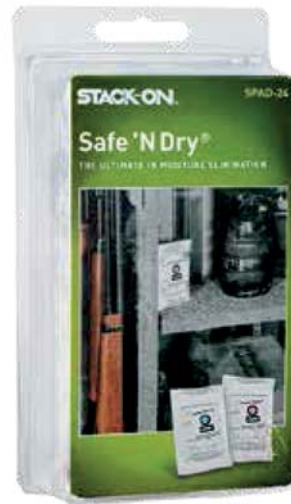

### Safe 'n Dry® Moisture Elimination Packets

Safe 'n Dry® desiccants pull moisture from the air and can be used almost anywhere.

- Each packet is individually wrapped in a foil pouch to prevent the desiccant from activating. Once opened each packet can draw moisture from 5 to 7 cubic feet for about 6 weeks before it will need to be recharged.
- Each packet includes a handy moisture indicator to let you know when it is time to recharge.
- Units can be recharged in a standard, vented oven at 200° F for 3 hours and can be recharged 3 or 4 times before its moisture absorbing properties are lost.

**Model #SPAD-60 (10 packs)** 3" w x 3/8" d x 4-3/4" h  
6" w x 1-7/8" d x 9-3/8" h (in packaging)

**Model #SPAD-24 (4 packs)** 3" w x 3/8" d x 4-3/4" h  
3-3/4" w x 1-3/4" d x 5-5/8" h (in packaging)

Color indicator changes to pink when it's time to recharge.

## SPAD-1500

### Rechargeable Cordless Dehumidifier

This mini dehumidifier is perfect for use in a safe or security cabinet.

- It absorbs excess moisture without having to drill holes or run electrical cords through your safe. It doesn't even require batteries.
- The moisture gauge on the front of the dehumidifier indicates when it needs to be recharged. It can pull excess moisture from 100 cubic feet for 4 to 6 weeks before it needs to be recharged.
- Recharging is easy, just plug the unit into a standard electrical outlet overnight and this cordless dehumidifier is ready to go.

6-1/2" w x 1-7/16" d x 4" h

9-1/4" w x 3" d x 7-5/8" h (in packaging)

## SPAD-12

### 12" Electronic Dehumidifier

- Designed to help lower humidity levels by warming the air inside an enclosed area. As the temperature increases, the air circulates, driving the moisture out of the air.
- Capacity: Up to a 100 cubic foot enclosed area.

1" w x 1" d x 12" h (without mounting feet)

4-3/4" w x 1" d x 14-1/8" h (in packaging)

# Accessories

## SPAPR-1504

### Deluxe 4-Position Pistol Rack

- Pistol rack allows for storage of 4 firearms above and magazines below.
- Sculpted, carpeted barrel rests allow for storage of larger guns in the center and small caliber guns on either end.
- Some assembly required.

11-1/8" w x 9-1/8" d x 7" h  
9-7/8" w x 1-3/8" d x 11-5/16" h  
(in packaging)

## SPASPR-1504

### Off-the-Shelf Hanging Pistol Rack

- Hanging 4-position pistol rack maximizes your storage space.
- Rack can be attached to the back of any Stack-On carpeted shelf that is a minimum of 8" wide.

8" w x 4-5/8" d x 1-3/4" h  
5-1/4" w x 2-1/2" d x 8-13/16" h  
(in packaging)

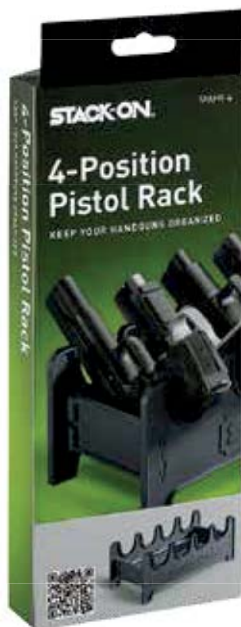

## SPAPR-4

### 4-Position Pistol Rack

- The unique design of this pistol rack allows for quick and easy access to handguns; it also allows multiple units to be stacked on top of each other.
- 2 steel stacking supports are included with each pistol rack. Made of tough ABS material with snap-fit construction.

10-5/8" w x 5-1/2" d x 4-1/4" h  
4-1/4" w x 1-5/16" d x 11-3/4" h (in packaging)

# Accessories

## SPAJD-10 Jewelry Drawer

Perfect for storing jewelry and other valuables.

- This drawer has a removable tray so small amounts of cash or documents can be stored underneath. Tray includes 3 separate sections—one includes padded rows for storing of rings or earrings.
- Easy to open and close with handy pull loop on the front of the drawer.
- Mounts underneath an adjustable shelf used in any Stack-On Fire Resistant Safe that holds a minimum of 22 guns. Drawer can be completely removed if needed.

Fastening hardware is included.

7" w x 10" d x 3.625" h

11-1/4" w x 3-13/16" d x 7-5/16" h (in packaging)

## SPAE-1401 Electrical Cord Accessory Kit

Add power to your safe with this electrical cord kit without compromising your safe's fire rating.

- A special grommet keeps tension off the cord on the outside of the safe.
- A fire retardant grommet is used on the inside of the safe that expands when exposed to higher temperatures protecting the contents of the safe from fire.
- The electrical box includes 2 sockets and can sit on a shelf or be mounted to the center partition of the safe.
- All parts are included along with easy to follow installation instructions.

3-1/2" w x 2-1/4" d x 8-3/16" h  
(in packaging)

# Accessories

## SPA0-148

### 4 Pocket Door Organizer

This handy fabric organizer expands the storage possibilities in your security cabinet and keeps frequently used supplies or items close at hand.

- Sized to fit Stack-On's Security Cabinets, this organizer can be mounted to the inside of the door for additional storage.
- A mesh pocket at the top of the organizer can be sectioned off into smaller compartments.
- Includes a belt strap for hanging storage—knives, walkie-talkies, etc.

8" w x 20" h

9" w x 1-3/8" d x 9-5/8" h (in packaging)

## SBB-11

### Gear Box with Key-Coded Lock

- All-steel, welded construction for greater strength and durability.
- Can be used as a single unit or connected for multiple unit applications and can be positioned to open in any direction.
- Includes foam padded bottom and pre-drilled holes for mounting to shelf. Fastening hardware included.

Matte Black.

6-1/2" w x 11" d x 7-1/4" h  
(product dimension)

The Gear Box is secured with a key-coded locking system.

## SPA-DisplayBar

### Easy to Use - Retail Display for Stack-On Security Accessories

- Bracket fits over the top/side of a safe or gun cabinet – takes up minimal retail space and positions the accessories right next to the safes/cabinets in the store.
- Steel "L" shaped bracket has multiple steel holes for easy positioning of various accessories.

Accommodates most retail hooks. (Hanging hooks are not included in the kit). Some assembly required.

2-3/4" w x 11/16" d x 30" h

30-7/8" w x 4" d x 2-5/16" (in packaging)

**STACK-ON®**

# Chest/Cabinet Combo

## CHEST/CABINET COMBO FEATURES INCLUDE:

This 6-drawer chest/cabinet combo offers ample storage for the home handyman.

- Rugged all-steel double wall construction for greater strength.
- Smooth-action I-beam drawer slides.
- Lockable 4-drawer top chest.
- 2-drawer roller cabinet with large bulk storage area.
- Durable 3" swivel casters.
- Durable baked epoxy finish resists rust and solvents.

### EASY SHIPPING & DISPLAY

The SC-600 ships with the top chest nested in the bulk storage area of the roller cabinet; saving on freight, handling and storage costs, plus reducing shelf space!

# Professional Plastic Tool Boxes

## BUILT WITH FEATURES THE PRO AND SERIOUS DIY-ER LOOK FOR:

Added strength from nickel-plated steel latches, galvanized steel hinge pins and steel riveted handle hold downs makes these some of the most durable plastic tool boxes in the market today.

- Large, nickel-plated latches are riveted into place, rather than pressure-fitted, providing greater strength.
- Handles are secured with a separate handle hold down, rather than passing through the lid, and the handle hold down bar is riveted into place.
- Galvanized steel hinge pins run through the hinge knuckles which keeps the box from separating under heavy loads.
- Recessed luggage type carrying handle makes it easy to stack boxes in a truck, SUV, or on a workbench.
- A partitioned tray is included with each box for greater separation of tools or frequently used tools.
- A padlock eye is molded into the lid and body of each tool box.

These boxes are designed to stand up to professional use with increased wall thickness in the body and lid.

STACK-ON®

# Log Stacker

## LOG STACKER

Keeps firewood off the ground and organized with minimal assembly.

- Can also be used to stack lumber and other items.
- No tools needed—assembles in minutes with standard 2" x 4" boards.
- Made of durable co-polymer material that will not rust or stain floors.

Individual Pack contains 2 stacker brackets.

Insert two 2" x 4" boards (max 8') into the horizontal slots to form the base. Insert four 2" x 4" (max 4') into the vertical slots to form the upright corners.
